EDUCATION

AISSMS COE

Bachelor of Engineering in Electronics & Telecommunications

Pune, Maharashtra

Aug. 2023 – May 2027

EXPERIENCE

Freelance Full Stack Developer

Jan 2024 – Present

Upwork (Remote)

- Built and deployed full-stack applications using **React**, **Next.js**, **TypeScript**, **Node.js**, **Firebase**, and **Appwrite** for clients worldwide
- Developed a production-grade **WhatsApp chat exporter tool** using `whatsapp-web.js`, headless Chromium, AWS S3, and Firebase Functions

Freelance Full Stack Developer

Jan 2025 – April 2025

Remote Tech Startup, United States

- Collaborated with a U.S.-based startup to build and iterate on internal tools and MVP features using **Next.js**, **TypeScript**, and **Firebase**
- Engineered a **custom algorithmic trading bot strategy** for NinjaTrader, integrating real-time data streams using **ThetaTerminal** and automated trade execution
- Worked closely with the founding team to deliver fast prototypes, integrate third-party APIs, and improve UI/UX flow

PROJECTS

Baatchit | *Next.js, TypeScript, TailwindCSS, Vercel, Firebase* | **GitHub**

2025

- Built a **multi-LLM chatbot platform** inspired by T3.chat, supporting models like Grok, Gemini, Claude, GPT, and more in a single interface
- Added features such as **web search**, **file-based context**, and flexible model switching
- Implemented a system where users can **bring their own API keys** directly in the browser and instantly use the models they prefer
- Made the project fully **open source**, focusing on accessibility, extensibility, and clean developer experience

Brickend | *TypeScript, Next.js, Zustand, Node.js, Prisma, Express, PostgreSQL* | **GitHub**

2025

- Created a **backend snippets library** that saves developers time by providing ready-to-use boilerplate templates
- Supports snippets for common tasks like **Prisma setups**, **REST/GraphQL APIs**, **Stripe integrations**, and more
- Built a feature for users to **add and save their own snippets**, making it a personal as well as community-driven tool
- Designed the platform to give developers a **clear, short understanding of backend topics**, serving as a one-stop resource for backend learning and quick development
